

Junior I.P.A Activity

Twig Broomstick

Every good witch and wizard needs a broom to travel around on (or to play Quidditch).

You can make your own in the woods...

Twig Broomstick

1

Find a long, strong, straight stick.

2

Collect a bunch of smaller, slender twigs.

3

Wrap the bunch of small twigs around one end of the long stick, tying them together tightly with string.

4

Now you're ready to fly off into the moonlight, or play in the Quidditch World Cup!

Make sure they're secure or you'll lose some on your first flight!

Whooosh!

This type of broom is known as a besom broom. Traditionally the handle is made from hazel, and the head from birch twigs.
