

Junior I.P.A Activity

Craft Stick Puppets

These craft stick spooky puppets are cute and easy to make. All you need are a few craft sticks and paint... and don't forget the googly eyes!

You will need:

- Lollypop sticks
- Paints (Orange, White, Black or other colours)
- Brushes
- Small googly eyes

Here's how it's done:

Craft Stick Ghost:

- 1 Paint your craft stick white.
- 2 Add two small black circles for your eyes.
- 3 Add a larger black circle for your mouth.

Craft Stick Mummy:

- 1 Paint the craft stick black.
- 2 Use your white paint to paint zig-zags along the length of the craft stick. Leave a bit of black showing between the stripes.
- 3 Add a couple of small googly eyes to finish your mummy. If you don't have googly eyes, use white and black paint to make your eyeballs.

Craft Stick Pumpkin:

- 1 Paint your craft stick orange.
- 2 Paint 3 small black triangles for your nose and eyes.
- 3 Paint a black zig-zag line for your mouth.

Try painting different colours for different monsters or ghouls.

Once your paint dries, your spooky puppets are ready to play with. Create a spooky theme for your stick puppets!

Good thing they're cute, and they are that simple!
