

Junior I.P.A Activity

Lollipop Stick Pumpkins

Make your own cute lollipop stick pumpkins! These are easy to make and great for Halloween decorations at home, school or to give to friends.

You will need:

- Lollipop sticks
- Paints (orange, brown, black, other colours)
- Googly eyes
- Green pipe cleaner (optional)
- Felt leaves (optional)
- Glue

1 Gather your supplies

Collect your lollipop sticks, paints, googly eyes, glue and any extras you want to use.

2 Paint your sticks

Paint your lollipop sticks orange and let them dry. You can also paint one stick brown for the pumpkin stalk.

3 Stick the sticks together

Stick the orange sticks side by side to make a pumpkin shape. Glue them together and add a brown stick at the top for the stalk.

4 Add the face

Add googly eyes and use a black marker pen or paint to draw a smiley face (or a spooky face!).

5 Add leaves and vine

Add a green pipe cleaner for a vine and glue on felt leaves (optional). You can decorate them however you like!

6 Finished!

Your lollipop stick pumpkins are ready! Make a few and create a whole pumpkin family.

Top Tip!

Try using different colours, shapes and faces to make your pumpkins unique!

Safety Notice:

Parents supervision is needed using glue, scissors and markers.
