
CURIOSITY CONTAMINATES WHAT IS PURE

Have you ever heard of the phrase, "[curiosity killed the cat](#)?"

This phrase implies that there are some things you do not need to know. There are some things that need to be kept hidden from you. Exposure to everything is dangerous.

As being intelligent beings it is in our nature to pursue the

unknown, question the mysterious and look for the invisible. However, when you do this **AGAINST** the wisdom of God it will be deadly.

This is the mistake Eve made in the garden of Eden. God gave her everything she needed. He surrounded her with goodness to the point where she wanted for nothing yet, she was still curious to eat the fruit that God forbid.

Genesis 3:1-7 says "Now the snake was the most clever of all the wild animals the Lord God had made. One day the snake said to the woman, "Did God really say that you must not eat fruit from any tree in the garden?"

The woman answered the snake, "We may eat fruit from the trees in the garden. But God told us, 'You must not eat fruit from the tree that is in the middle of the garden. You must not even touch it, or you will die.' " But the snake said to the woman, "You will not die.

God knows that if you eat the fruit from that tree, you will learn about good and evil and you will be like God!" The woman saw that the tree was beautiful, that its fruit was good to eat, and that it would make her wise. So she took some of its fruit and ate it. She also gave some of the fruit to her husband who was with her, and he ate it. Then, it was as if their eyes were opened. They

realized they were naked, so they sewed fig leaves together and made something to cover themselves.”

Her curiosity caused the first royal family (Adam and Eve) to lose their dominion over the earth, the Kingdom and most importantly their identity as Kingdom citizens. Curiosity can cause you to **LOSE** more than you think. If God says don't do something, believe it. If God says don't go there, listen to Him. Wondering what's on the other side **WITHOUT** God's authorization will produce major consequences.
