
PROTECT YOUR CREATIVITY

Your creativity is fragile. It can be lost if you do not cultivate and nurture it. Many people do not realize this. They take for granted their creative spirit. They neglect to develop their creative ability.

There is nothing new under the sun. However, creativity does not create anything new. It takes an **OLD** idea and converts it into a new **WAY**. Creativity is all about developing **NEW WAYS** to achieve better results. In other words, creating a better mouse trap.

**You cannot use
up creativity.
The more you
use, the more
you have.**

- Maya Angelou

If you do not protect your creativity your life will become very dull, boring and complacent. If you are living this type of life it is because you have allowed your creativity to lose its potency. To look at the same thing in the same way all the time produces stagnation.

Think about it. How have you seen your house lately? Are you looking at it as a place to only lay your head? Or have you taken a **DIFFERENT** look at an old thing? Your house can be a place of inspiration. It can be a domain for meditation. It can be an entertainment palace.

It can be whatever you want! **JUST THINK!** Creativity revives what is old. It restores what is broken. It reclaims what was lost. Isaiah 43:19 says , "*Behold, I will do a new thing; now it shall spring forth; shall ye not know it? I will even make a way in the wilderness, and rivers in the desert.*"

Jeremiah 31:22 say, "*How long wilt thou go about, O thou backsliding daughter? for the Lord hath created a new thing in the earth, A woman shall compass a man.*"

These are two references highlighting how the Lord **LOVES NEWNESS**. He is an advocate for creativity. People who are creative...

- Get better with time.
- Stay energized.
- Maximize every opportunity.
- Make the most from the least.
- Find results in difficult situations.
- Stay relevant.
- Stay happy.

Your creativity is the **KEY** to keeping your life fresh and reinvigorating. When you protect your creativity you will preserve your future.
