
WHAT ARE YOU WILLING TO DIE FOR?

When you discover **WHAT** you are willing to die for you have discovered your purpose. Who you're willing to die for displays your love but **WHAT** you are willing to die for identifies your **PURPOSE**.

I am speaking of death in the **LITERAL** and **FIGURATIVE** sense. Dying figuratively is laying down your agenda, personal pleasures and objectives to fulfill a divine purpose. Dying literally is physically laying your life down for something you believe in **MORE** than yourself.

**DON'T DIE OLD.
DIE EMPTY.
-MYLES
MUNROE**

People who have found their purpose did not care about their life anymore. Their purpose became bigger than their existence. Dr. King discovered his purpose. He laid down his life to fulfill it. Nelson Mandela discovered his purpose. He was willing to suffer imprisonment for 27 years to fulfill his purpose.

King Jesus discovered His purpose. He sacrificed His life for mankind. All of these hero's mentioned above laid their life down figuratively and literally. **WHAT** are you willing to die for? **WHAT** is that thing that carries more significance than you.

If you can find what you are willing to die for you have discovered your purpose. People who have discovered their purpose are not afraid of death. They embrace it! Read this teaching called, "[How do I prepare for death?](#)" to learn more.
