

5 FACTS ABOUT VISION

Vision is a **NECESSITY**. Without vision you have no direction. Without vision you can't see your future. Without vision life is blurred and foggy.

Habakkuk 2:2 says, *"The Lord answered me: 'Write down the vision; write it clearly on clay tablets so whoever reads it can run to tell others.'"*

Vision provides clarity to what is confusing. It provides focus to what is unclear. It provides hope for what is uncertain. **ONLY** God can give you vision. Why? Because no human can see into your future and tell you what is to come that hasn't yet been revealed.

Here are 5 facts about vision that you need to understand and remember so you can **VALUE** how important it is.

1. **Vision protects you from future problems:** When you have vision you can prepare for potential problems that will arise.
2. **People with vision won't become victims by tomorrow's problems. They will be prepared for them:** You can either be a victim or Victor. Victims are reactive when trouble occurs. Victorious people are **PROACTIVE** in avoiding the trouble.
3. **Vision is a glimpse into your potential growth:** When you get a glimpse into your future you receive hope to keep moving forward and not give up.
4. **If you have no vision you have no future:** Vision is a flash light into the future. If you can't see ahead, there's no direction.
5. **Only God can give you Vision:** Men give you information. God gives you imagination. Vision is imagining what life could be like and what it will be **IF** you submit to God's will.

When you receive a vision from God **ACT** on it. It is the gateway to your future.
