RESICA

Residual Cash - Turning \$65 into Monster Profits
Sending MLM and 1&2-Up to the Landfill.

INTRODUCTION

So, What Is **RESICA**?

Before answering that question it's important you know about the guy you're dealing with.

I'm Hermann Mischke. In 28 years I'll be 100 years old. I was born in Germany. Arrived in the **US of A** in August 1958. Quite a few people like to call me "**Herman th' German.**" I worked as bricklayer and carpenter. Later was blessed to see Jesus Christ for who HE is. Had 8 years of college and seminary. Pastored from 1969 through 1985. Retired. Then remodeled baths and kitchens. I've been married for 90 years (45 for me and 45 for my wife). Fathered 5 offsprings. Have 12 GREAT grandchildren.

That makes me a GREAT-granddad. I grew up as orphan (my dad was killed in WWII [I was 3], my mom died in 1948 [I was 10]). As a six year old I discovered when I do nice things for people they are nice to me. That became my life's ambition - to benefit others.

Then in 1987 - out of the blue - a chain letter: "**Make \$65,000 - just sending this letter.**" WOW! I jumped into that with arms and legs. Lost over \$800. That activity got me on mailing list-databases. Since then I had joined and promoted AND even created & operated a variety of programs.

Very quickly I realized there is something terribly wrong with MLM (and 1&2-Ups).
I belonged to the 97% of all networkers who lost tons of their money.

I kept saying, "There has to be a better way to leverage money." For years I juggled numbers and pay structures. It became an obsession to find a replacement for the MLM delusion and 1&2-Up torture.

THEN in December 2010 IT HAPPENED - I was stunned - I thought, "No way - someone else would've figured this out years ago." I put Google on overdrive looking for that idea - NOTHING!

My youngest son (37) said, "**Dad you cracked the code. There will be many angry MLMers.**"

By mid-January 2011 everything was fleshed out. **RESICA** was born.

The best way to describe it is by using the "Apple Seed Idea." Here it is...

ONE apple has at least five seeds but...
ONE SEED has an infinite number of apples in it.

VISUALIZE THIS...

You plant one seed and an apple tree grows to produce hundred/thousands of apples - each with five seeds in it. Those thousands of seeds again generate trees for apples with seeds in them - on to infinity. **So, how many apples are in one seed?**

RESICA - the endless perpetuation of cash producing accounts.

Let's Show the Extreme Importance of **RESICA**
for YOU, for Me and Many, Many Thousand Others.

RESICA

To do that, let's put the MLM method under the magnifying glass.

Why is it that a rapidly growing number of marketers say that...

MLM = Most Lose Money!

There are a variety of FAILURE-factors. Bad programs, dead mailing lists, too many programs, nonperformers, poor management, etc.

HOWEVER, the worst thing about MLM is the RECRUITING STRUCTURE itself. **It is flawed by two human elements.**

1 - Human Personality and 2 - Human Population.

1 - Human Personality - People fall into three general groups - the aggressive - the cautious - the passive. These three have a great bearing on the success and failure to make money through the MLM structure. The **aggressive** are the heavy-hitters, the **cautious** are the majority of people who work hard and long until the expense outweighs profit. The **passive** are the non-performers.

In January 2009 I created a program called "New Way Profits." 1,239 people were placed into the "F5M" program on the Internet. All year I slaved and got \$100 from F5M. The entire downline matrix looked like a massive piece of Swiss cheese with more holes than cheese. The holes were created by those who did not sponsor or simply could not afford to do so.

ALL MLM and 1&2-Up programs are plagued by this human element. People join programs and cannot or will not market sufficiently to make the program work.

2 - Human Population - you have seen a compensation plan that uses this phrase **"...on to infinity..."** The present world population is now 6,897,500,000, nearly seven billion people. That is NOT an infinite number. Of the 6.8 billion people only a fraction is seeking income through mlm. So the number is even more finite.

It is impossible to gauge how many people try to make money in the Income Opportunity Industry. So let's assume, for illustration purposes, ONE THIRD of the world population is involved, trying to make money from opportunity programs. 1/3 of 6.8 billion would be approximately 2.3 billion people.

Anyone with Internet connection can search for "Lists of MLM Companies." The shocking fact is the list is not only huge BUT what is worse yet, each needs the entire 2.3 billion people to stay in business.

On the next few pages I will illustrate the sheer impossibility to make any decent amount of money for most people who join any or many MLM or 1&2-Up programs.

The statistics we constantly hear or read about is 95 to 97% of all program affiliates lose money instead of making money. For any logically thinking human being - that is bad - really bad.

Horrible Details

Conventional MLM (Multi Level Marketing) Is a Jungle.

Pitfalls, snares, etc. trap the naïve and ignorant. The MLM Jungle is filled with money-hungry predators. They prey on those desperate for money. Millions of dollars have been lost by income seekers. And the carnage keeps on going.

WHY is it so impossible for most people to succeed in this quasi-lucrative income producing industry?

I won't give a list of all the gory culprits. I will focus on the most critical **NEGATIVE** element of MLM

THE RECRUITING STRUCTURE.

Some call it "matrix" - others call it "pyramid."

Sleaze

Fleeced

Complainer

Lazy

Most of you know what a "Recruiting Structure" is.

YOU join an income program and recruit **4**. (see illustration) That creates **level 1**. Those **4** recruit 4 each for **level 2**. That produces **16** people. Now 16 people recruit 4 each and fill **level 3** with **64** people. Then the 64 recruit 4 each to fill **level 4** with **256** new members.

As each level fills up, the demand for more people to join the program grows. Level 14 has over **268 million** affiliates. Each needs to recruit 4. If that were possible the number of people on level 15 would be over ONE BILLION people.

As each level fills there are less people available to recruit. Finally, people at the bottom of the recruiting structure waste their money on fruitless prospecting.

Since the people on level 15 can't get people, they quit. The people on level 14 don't make money off the people on Level 15, they quit too. So the entire structure decays from the bottom up.

The program eventually closes and ALL lose their MLM investment.

In the last twenty years the MLM-graveyard has grown to monstrous proportions.

And this Is Strange - IT'S A FACT - attempting to make money with MLM is like trying to fill a bottomless bucket.

Yet people still create new mlm programs and many Networkers still fall for them.

Totally hopeless

QSAVE affiliates post a variety of tempting words. Check this example:

"This is your chance to be at the **TOP!**" "...everyone wins!" What do Stan and Jeff imply by at the **TOP?** Are there better chances to make it at the top? Because later on it will be harder to sponsor people?

QSAVE shows a total earnings of \$262,112 when the 2x15 matrix is full. A full matrix has a population of 65,534 people. On **level 15** are **32,768 people**. For EACH of them to make the \$262,112, **EACH ONE** has to have a 2x15 matrix filled with 65,534 people. Multiplying 32,768 by 65,534 yields this number of people: **2,147,418,112** - that is **OVER TWO BILLION** people. That is 1/3 of the world's population. There are a lot of people wasting their money and time to recruit others into this program. "...everyone wins!" is for those who get in **FIRST**. For the latecomers it is a mere **LURE** to lose their money.

**65,534
People Per
Matrix**

No doubt, this program will make a lot of people **SOME** money. BUT eventually this program will close for lack of new recruits at the bottom of the giant matrix. By the time the 2x matrix has grown to **LEVEL 33** there will be 8.5 billion people. An absolute impossibility for late comers to make money.

HERE'S A QUESTION: Do the **QSAVE** Owners know that? Do most affiliates consider that? Does the entire Networker population join Qsave? Or are people in the other hundreds of programs who will not join Qsave?

RESICA

One More Example

American Bill Money
SINCE 2003

As in this brochure and at <http://www.abminfo.com> ABM presents 3 "sizes" of potential income from a 5x3, a 10x3, and, a 20x3 matrix.

Notice the monstrous matrix population growth for each recruiting structure illustrated below.

A - If everyone consistently recruits 5, the earth's population would be depleted after the **14th** level.

B - If everyone consistently recruits 10, the earth's population would be depleted after the **9th** level.

C - If everyone consistently recruits 20 the earth's population would be depleted after the **7th** level.

That means everyone recruits 5 all 13 levels down to 1,220,703,125 on that level.

Each level uses 7 months and 3 weeks during which each ABM affiliate recruits his/her 5. That means in 2011 there will be 1.2 Billion ABM affiliates busy doing the impossible. They are trying to get the entire population of the earth into ABM. They would have to recruit over 6 billion people. **Do you see how insane this MLM scenario really is?**

There have been and presently are ABM affiliates who are spending monthly \$125 of their precious money buying postcards, brochures, plus stamps to recruit their 5. Finally the \$125 each month does not bring in the residual for them. Many finally quit. In the meantime ABM cashes in.

**There are hundreds if not thousands of these programs.
All are busy TRYING to recruit gullible people to waste their money on them.**

Do you think the owner/operator of ABM does not know this? Of course he does. He hopes nobody will take the time to evaluate these numbers. He, like all the others, runs his business because it is a very lucrative business **for him**. Making money off those who lose theirs.

Consider this - ABM claims they have been in business since 2003. From January 2003 to

December 2010 are 8 years - or 96 months - or 417 full weeks. Let's use the 5x3 compensation plan and the 13 levels potential.

These Programs Are Like Thousands of Spiders. They weave their nets to suck out the financial life-blood of those desperate to succeed. Here's a partial list.

Cash Generator - 6x3 matrix - 258 people per one person's matrix.

The FREE ENTRY program - 5x4 matrix - 780 people per one matrix.

Forced Cash Gifts - 5x4 matrix - 780 people per one person's matrix.

The Power of Three - 3x6 matrix - 1,082 people per one matrix.

Freeway to Success - 5x5 matrix - 3,905 people per one person's matrix.

Need Daily Cash - 5x5 matrix - 3,905 people per one person's matrix.

Ultimate Cash Storm - 3x9 matrix - 29,523 people per one person's matrix.

World Light Biz - 2x14 matrix - 31,766 people per one person's matrix.

Stop Ready Go! - 4x9 matrix - 349,524 people per one person's matrix.

Top Position - 3x12 matrix - 797,160 people per one person's matrix.

Pay It Forward 4 Infinity - 3x15 matrix - 21,523,359 people per one matrix.

Work for 3 Dollars - 3x15 matrix - 21,523,359 people per one matrix.

They advertise to you with postcards & letters. Your email inboxes get stuffed with their great sounding words and luring appeal. Many succumb to hope-inducing words and then lose their shirts.

Look at the trees below. They are matrixes of differing width. All have the same mess **YOU** - at the bottom there are no more people to sponsor. Some to die and take them. will die sooner than others. But ALL are doomed many peoples' money and hope for success with them.

The Income Opportunity Industry Is in Desperate Need of a...

...Revolutionary **SOLUTION!**

For Over Half a Century Income Seekers
have been handed a financial-suicide-gun.

At least 90% of ALL income seekers forever lose their money.
Failure has created deep scars of disappointment, frustration, and despair.
Program creators & operators continue to mislead those still hopeful.

RESICA Is Designed to TOTALLY REVERSE the
Problem and send MLM to the Landfill.

Here Is How:

Solving the "Population Problem" - i.e. running out of people to sponsor.

Notice Paul is holding the **SCA** sign and Kim is holding the **APM** sign.

Both the SCA and the APM are the two unique systems that work together in harmony to generate enormous amounts of money WITHOUT END for each "RESICA Base Account (RBA)" Owner.

SCA stands for "Self-Cloning Accounts." When a person buys the RBA (RESICA Base Account), that account creates automatically 52 new profit generating accounts for the RBA Owner. Then EACH of the 52 new accounts again creates 52 accounts each - $52 \times 52 = 2,704$. Then there are 2,704 accounts each of which create 52 moneymaking accounts - $2,704 \times 52 = 140,608$. This account cloning goes on forever. It can't stop because of the way the system works. We'll come back to that on the next pages.

ACCOUNTS CLONING

PAUL

Every member's account, base and sub account, has an "APM" - "Aggressive Profit Maximizer." APMs are reservoirs for the sales profit generated from the 2 sales each new affiliate will make after the purchase of a RESICA. Base Account Profits in the APMs grow from account sales and accounts that are cloned. Money grows fast to great amounts for each Owner.

PROFIT MAXIMIZING

KIM

To Illustrate the “Self-Cloning Account and Aggressive Profit Maximizer”

VISUALIZE the following:

ONE EGG hatches one egg-laying chicken. That ONE chicken can lay one egg a day - 365 eggs a year. How many chickens are in EACH of those eggs.

In this illustration the SCA is like the EGG. The APM is like the egg's regenerative fluid (yoke & whites). Those fluids turn into a chicken through incubation. Just as that one single egg generates millions of eggs so also EACH original RESICA account becomes many, many money generating accounts.

What that all means is that the RESICA program is populated by an **ever climbing percentage** of accounts rather than by people. AND eventually accounts will replace people.

The illustration to the right shows **A** as typical 3x6 matrix filled with 126 people. **B** shows the same matrix in which the are Self-Cloned Accounts. As shown **“YOU”** makes two sales and each of the two make two sales each. On the

second level **“YOU”** has his first cloned account

Then on the third level **“YOU”** has his second account and the **two sales**

“YOU” had made have their first two cloned accounts.

On the fourth level **“YOU”** has his 3rd cloned account PLUS his first cloned account created another cloned account.

Then, what is even more exciting, many RBA buyers see the enormous cash generating power buy immediately one or two additional accounts. Very quickly the matrix fills

with more accounts than people. All these accounts keep on cloning themselves forever and the money they

create is incredibly immense.

The illustration on the next page shows the profit-immensity of the self-cloning effect of **ONE person's RBA**. But what is shown there are only the sub-accounts created by the original RBA.

And here is the amazing fact, EACH of the RBA sub-accounts also will clone accounts and those accounts will do the same. This auto-replication can't stop, based on the RESICA system mechanics.

Can you see the enormous benefit for each person purchasing merely a single RBA? Imagine if you were to purchase three or four - the money would grow quickly into the billions of dollars.

So, when you turn to the next page, let your imagination soar. Meditate on the impending easy method toward financial success and freedom. **All just from one purchase and two sales.**

Take a look at just the Base Account in the illustration above. Each dollar amount is the payout to the account holder. Payments grow from \$20 to \$30, \$40, \$50, \$60, on to \$100, \$200 and on to \$500,000.

So, with the SCA (Self-Cloning Accounts) RESICA solved the human population problem. **What about the "Human Personality" Problem - i.e. "Non-performers?"**

The RESICA method eventually creates a super surplus of accounts. And non-performers are actually dual **beneficial parasites**. By purchasing their RBAs they bring in dollars. They receive accounts as they become available - they are on a waiting list. But as soon each has gotten the two accounts the cloning effect begins for them too. Later they become a further benefit to the program.

Do you begin to see how RESICA will eventually send conventional MLM and the Australian 1/2-UP to the landfill? It would be absolutely ludicrous for anyone to create any type of those programs.

Marketing RESICA - People with Problems Buy Solutions!

Do Income Seekers have a PROBLEM with MLM and 1&2-UP Programs? 97% of them don't make money from them. Would they WELCOME a SOLUTION? Would you buy a RESICA Base Account if that would transform your experience with network marketing?

Of Course You Would!

There are thousands out there looking for a Real Solution.

The RESICA Scenario

Simplicity & Certainty

BUY ONE

[SIMPLICITY]

BUY ONE - SELL TWO

Aspiring affiliates purchase their Own RBA
"RESICA Base Account"
for \$65.

Affiliation are entitled to all profiting privileges
resulting from a brief one-time sales campaign,

SELL TWO

selling TWO RBAs - Each for \$65. After that there is NO MORE REQUIREMENT to make sales.

Simplicity is even more reinforced by the sponsoring materials. People will form a new attitude about joining a program when they receive RESICA circulars.

A revolutionary solution that will forever stop the mlm harassment in their income pursuit. Income seekers will welcome this solution. It will be easy to promote.

CERTAINTY

Roll the "success dice" and every time success shows up. The reason, of course, is simple - all 6 sides have success written on them.

This is RESICA - everywhere you turn this program, it has success written on it. The income generating formula is so complete -

Attracting income seekers to a **Solution** that they desperately need.

Maximizing profits that again maximize profits - growing without end.

Cloning accounts that eventually replace the need for affiliates.

Collecting residual income - effortless and automatic cash supply.

Guess-Work Is Gone / Risk Is Vanquished
RESICA has ALL elements of success!

Here is My Review

MLM has two major flaws: (1) there are never enough people to fill the entire company matrix. (2) most people who join mlm programs don't do what is expected of them.

The Internet and postal mail has a fierce program competition with **far too many programs**. MLM program developers and operators make a killing by luring money-desperate people into hopeless program situations. Based on statistics, 97% of program joiners lose their money.

A REVOLUTIONARY SOLUTION FOR DESPERATE LOSERS

The SOLUTION that totally eliminates the income seekers' failure rate. As SOLUTION RESICA is a high-demand product and sells super fast.

RESICA solves the dual MLM dilemma - i.e. running out of people to sponsor and attracting nonperformers - people who won't or can't sponsor.

RESICA focuses mainly on an automatic "**Account Cloning**" process. The result is progressively less and finally no dependence on people recruitment.

RESICA re-invests sales proceeds into perpetually expanding "Profit Maximizers." This results in a never ending supply of money for affiliates.

RESICA manipulates non-performers with limited benefits. They are on a waiting list for borrowing accounts when they become available. Borrowed accounts will be repaid to the lenders.

RESICA simplifies profit creation by requiring just ONE account purchase and TWO account sales. Aggressive marketing materials will perform the sales.

You have absolutely NO CHOICE at this point.

Well - YES - - - You do have a choice.

Either keep on giving your time, energy and money to others OR

Make A SINGLE \$65 payment and put RESICA to work for you.

Do enough marketing to make two sales.

On the next page you will find the "Purchase Agreement."

Carefully read through it and then place your order today.

After you have sent off your order
REALIZE THIS...

You just performed your own
Self-Rescue from MLM-waste
And from bondage to financial scarcity.

MLM/1&2-Up

RESICA BASE ACCOUNT (RBA)

Purchase Agreement

MUST READ AND SIGN - RESICA is the reaction against the MLM disaster. As such RESICA is the desperately needed REPLACEMENT of ALL MLM AND 1-2-UP income opportunities. RBA sellers gain profits from TWO SALES. No sales means no profit. One person's original two sales profit are compounded by the chain of successive sales. The RESICA systems produce progressive financial results for every RBA seller. Each RBA **buyer** must submit to the following stipulations:

- ☐ A RESICA Base Account (RBA) costs \$65. The purchase is a FINAL purchase. It cannot be reversed.
- ☐ Achieving RBA sales entails SOME marketing expenses. Affiliates must calculate them into joining.
- ☐ Integrity is an absolute - affiliates will uphold factuality when broadcasting the RESICA opportunity.
- ☐ RESICA **IS NOT** a "get rich quick scheme" - the marketing processes take time to generate results.
- ☐ Affiliates **utilize** RBAs as a moneymaking tool. Success depends primarily on achieving the 2 sales.
- ☐ Affiliates agree not to involve RESICA in any legal processes about their association with RESICA.
- ☐ RESICA **manages** active affiliate accounts and **distributes** profits to respective account owners.

I accept the above stipulations. I am confident I can achieve two RBA sales through the use of RESICA sales materials. I understand **EACH RBA I OWN** needs two account sales to generate projected profits. Therefore, I place my order for the amount of RBAs stated below.
